

MERRIMACK VILLAGE DISTRICT

August 6, 2018

Dear Customer,

This letter is to inform you that Merrimack Village District will be performing maintenance/repairs to the water line in your area on **Tuesday August 7th**. Work is scheduled to begin at **8:00 AM and continue until completion (by 3:30 PM)**. **During this time water service will be interrupted.**

Please be aware, the work may disturb the natural mineral sediment in the main water lines which can cause the water to look yellow or brown colored. In addition, you may also notice air in the lines which can cause the water to appear cloudy or “milky”. Neither of these issues pose a health risk and there is no concern drinking the water. Within 24-hours the water should settle and clear.

If there are concerns regarding this notice or the work to be performed, please feel free to contact our office by phone at 603-424-9241 or via email to customerservice@mvdwater.org

Sincerely,

David Fredrickson
