

April 25th, 2019

To Whom It May Concern,

Jeremy Hiltz Excavating will be making some water system improvements along the northern end of Daniel Webster Highway in the area of Priscilla Lane. To make these improvements Merrimack Village District will need to shutdown water service. The improvements are being scheduled as night work on May 11th and/or May 12th, weather permitting. To minimize the interruption, the shutdown is planned for 11:00pm and will last approximately 8 hours. Should you have any questions in regards to this shutdown please contact myself, Will Hess (General Manager) at (603) 968-9694.

We thank you for your patience during this time.

Respectfully,

A handwritten signature in black ink that reads "William Hess".
